

Enhanced Professional Liability Insurance

For Architects, Engineers & Environmental Consultants

The Professional Liability Insurance Program being presented to you features claims-made coverage that was specifically designed for the A/E community and is available exclusively through Hall & Company.

Developed to suit the insurance needs for design firms of all sizes working in any discipline, the program provides a broad definition of professional services and a bare minimum of exclusions. This program stands out as a high quality and competitively priced option in the Professional Liability marketplace.

Firms will receive worldwide coverage and protection against claims resulting from allegations of errors, omissions or wrongful acts. Industry-related consultants and specialty designers who traditionally have not been eligible for standard coverage may qualify for this program as well. Specific highlights of the program include:

- Design/Build & Construction Management coverage
- 60-day reporting period after policy expiration
- Pollution coverage
- Choice of defense counsel subject to underwriter's consent
- Joint Venture coverage if scheduled on the policy
- Complimentary contract review services

In the event of a claim, you are assured top-notch response and representation provided by Clyde & Co., US, LLP, the claims manager for this program. This claims management expertise will help you to avoid, mitigate and cost-effectively resolve claims.

Premiums & Limits

\$3,500 minimum premium
